AGWE

THE TURTLE TRAVELER

BOB KING

Some of the stories in this slides are both fictitious and non-fictitious. Agwe, the Turtle, lives in Keelung- in the northern part of Taiwan!

It is a unique turtle because its shell is flat and different from other turtles. We will use the “AG” abbreviation as a reference to the name “Agwe. AG was born in 1992, and it is now 28 years old, Dec. 22nd, 2020

ACCIDENT

One day, when grandpa was eating breakfast, he was in a hurry to work.

He did not know that Agwe was by his side, which is next to the dining table. He stood up and stepped on Agwe accidentally. Oh! My God! said, grandpa. " I stepped on Agwe by mistake!" Agwe felt the pain seriously, and everyone at home was very sorry. Ag was only five years old.

Grandpa was unhappy and felt very sorry about the accident that day. He did not go to work. He took AG to the hospital and stayed with him throughout the day. Agwe's shell became flat and crampy.

AG, the turtle, likes to listen to grandpa and grandma. He does not listen or play with any other person in the family where he lives.

If grandpa says: Come here! AG will come as quickly as possible and stays with him. He understood and **recognized** grandpa's voice. They are great friends.
